NO. 38

PROMINENT LUTH. MINISTER PASSES AWAY IN FULNESS OF SUCCESSFUL USEFULNESS.

Prominent Physician of Brooklyn,
Native of County Dies—Son of
Associate Judge Kuhn.

Rev. John A. Wirt, D.D., died at his home at Des Moines, Iowa, on last Saturday after a brief illness, in his 60th year. He was born in Dauphin county, Pa., in May, 1848, and graduated from Gettysburg College in 1874, and from the Seminary in 1876. He married Miss Mattie Buehler, a daughter of Mr. and Mrs. David A. Buehler of this place. His first charge was at Lykens, Pa., and soon after entering the ministry he accepted a call to the Lutheran church at Des Moines. At Easter of this year he had enjoyed the success of his very useful life in that city. On Good Friday he had received into his church 70 members, being the largest number ever admitted to the Des Moines church at one time, and this number included twenty families, among them some of the very best and most influential people of his city, adding greatly to the strength of his church. The credit of the work was entirely due to Dr. Wirt and the Easter accessions were pointed to as a strong endorsement of long pastoral relations and that long and patient service brings large results.

Andrew Rickrope of Hanover, died at the Union Protestant Infirmary of Baltimore on Wednesday of last week. On the Friday before he had been operated on for gall stones and on Sunday pneumonia appeared and it was soon apparent that that disease had a firm grip upon him. He was aged 76 years, 3 months and 21 days. He leaves three sons and one daughter, Francis and William of Hanover, Joseph of Berwick township, this Co., and Mrs. Geo. Hoffman of Hanover. He was a veteran of the Civil War, having served in Co. G, 71st Pa. Regt. The funeral was held last Saturday, services by Rev. Father Huber and interment in St. Joseph's Catholic cemetery.

Margaret Elizabeth Utz, only daughter of Mr. and Mrs. Charles Utz of New York City, and grand-daughter of Mr. and Mrs. Daniel Utz of Latimore township, died at her home in New York City on April 29, aged 16 years, 2 months and 26 days. Death was due to diabetes. Interment was made in Chelton Hill cemetery at Philadelphia.

George Flickinger died at the residence of a daughter at Bruceville on May 2nd, at the great age of 84 years and 11 days. Interment was at Woodsboro, Md., on Monday of last week. He leaves 8 children, 37 grand children and 10 great-grandchildren. Mrs. J. Stewart Hartman of Silver Run, Md., was a daughter.

Dr. Louis DeBARTH KUHN died at his home in Brooklyn on last Wednesday. He was born at East Berlin, this county, Oct. 22, 1829. He was educated at the local schools at Conowingo Chapel and at Mt. St. Mary's College, Emmitsburg, which institution conferred upon him the degrees of A.M. He graduated in pharmacy and in medicine at the University of Pennsylvania, and entering the marine service of the United States in 1854 sailed around to California and to Port Townsend, then in Oregon. As surgeon he attended the expedition which located the boundary line with British Columbia, and became well acquainted with the young army officers who afterwards ripened into generals in the Civil War. At Port Townsend Dr. Kuhn married Amelia Pettigrove, whose father, Francis W. Pettigrove, was one of the pioneers on the coast, who had laid out the city of Portland and named it after his native place in Maine. After about 15 years' service on the frontier, Dr. Kuhn returned east to visit his parents and old home, and later located in Reading, Pa., where he practiced about fifteen years. He then removed to Brooklyn, where, in the neighborhood of St. John the Baptist church he had ever since resided. He assisted his brothers and their associates in forming the Catho-

lic Benevolent Legion. He served upon the staff of St. Mary's Hospital, and enjoyed a large practice until a few years ago, when his health failed. He is survived by two sons, three daughters and several grandchildren. The funeral services were held in St. Patrick's church last Saturday morning. Dr. Kuhn was the second son of the late Judge Joseph J. Kuhn of East Berlin. His older brother, Edward J. Kuhn, who resided near Hanover, Pa., died two years ago. Surviving brothers and sisters are Chas. E. Kuhn of Denver, Colo., Joseph A. Kuhn of Port Townsend, Wash., John R. Kuhn, Esq., and Dr. George R. Kuhn of Brooklyn, N. Y., also a sister, Mrs. Jennie E. Riley of Brooklyn, N. Y.

Mrs. Mable Biggs Whitney, died on April 27, 1908, in Minneapolis, Minn., the cause of her death being heart trouble. She leaves a husband, Chester Whitney, and a four months' old baby. Mrs. Whitney had lived her whole life in Minneapolis, and was a daughter of Leander and Annie Byers Biggs who moved from Adams county to that city about 29 years ago, and her father died there about 25 years ago.

Mrs. Mary Ann Rhine, widow of Henry Rhine passed from life to death at her home on Breckenridge Street early Monday morning, aged 70 years and 6 months. She had been enjoying her usual health, occasionally complaining of not feeling well. Sunday evening after retiring she complained and one of her sons went to her physician and obtained some medicine she had been using and after taking same she told her son to retire. Later in the night or rather early Monday morning she was heard and the son went to her room and she explained that she had a feeling as though she wanted to vomit but could not, and while he was with her in the twinkling of an eye she fell over dead on her bed. Deceased was well known for many years by her maiden name Mary Ann Culp, being a daughter of David Culp, who was for years sexton of St. James Lutheran church, and as far as known Mrs. Rhine was the last of a branch of the Culp family that were very numerous at one time in this community. She possessed many virtues. She had been a self sacrificing daughter caring for her aged father for many years. Upon her marriage years ago to Henry Rhine she became a mother to his family. It is seldom that a step-mother comes into a family and takes the position that she did, filling the place of mother, the sons becoming very dear to her and to whom she gave the last years of her life in loving service and in return they were devoted to her, making her happy with many attentions. She leaves five step-sons, who were veritable sons to her, Charles of Clearfield, George of McSherrystown but now at home, Harry, John and Samuel at home.

Funeral this, Wednesday, afternoon at 2 o'clock, services by Dr. Clutz with interment in the Evergreen Cemetery.

LEAH HARBOLT died on last Wednesday at the home of her son in Washington township, York county from paralysis after an illness of two weeks aged 80 years 5 months and 11 days. Her maiden name was Zinn and her husband died about 22 years ago. The funeral was held last Saturday services by Rev. Shellheimer interment at the Holtzswam church. She leaves two sons and three daughters, Henry and John of Straban township this county, Mrs. Trimmer of near Holtzswam church, Mrs. Edward Myers of Huntington township and Mrs. Edward Simpson of East Berlin.

Mrs. Elizabeth Stock, widow of Rev. Daniel Stock died at her home in Hanover on Sunday after an illness covering several weeks during which she was confined to bed, nearly 80 years of age. She was a native of the county, her maiden name being Miss Elizabeth Wolf, daughter of Isaac and Elizabeth Howe Wolf of near Abbottstown, and married Rev. Daniel Stock who graduated from the Seminary here in 1846 and who after his retirement from the ministry lived in Hanover until his death about eight years ago. Mrs. Stock was a sister of the late J. George Wolf of Gettysburg. The funeral will be held this Wednesday afternoon at 2 o'clock in Hanover. Services by Rev. Dr. A. S. Fastnacht, interment in Hanover Cemetery. She leaves a son and daughter Rev. C. M. Stock D.D. of Hanover and Mrs. Ida Secrist of Hanover. She is survived by two sisters Mrs. Abraham Thoman of Abbottstown and Mrs. Daniel Minter of Hanover.

WILLIAM McILHENNY who had been living at the County Home was found dead last Friday noon at the farm of Emanuel Plank on the Fairfield road by Hayden Reinecker, a grandson of Mr. Plank. Mr. McIlhenney was a native of Freedom township and was born near McIlhenney school house in that township. A sister and two brothers occupied the home property for many years, first a brother died and then more than two years ago the sister passed away and the surviving brother, the deceased was unable to live alone and two years and two days ago came to the

County Home. He was about 71 years of age and quite feeble in health and mind and continually talked about going away. Though carefully watched he eluded the keepers on the morning of Thursday, April 30th and wandered away and managed to keep out of sight so that his whereabouts could not be ascertained. How he subsisted is not known, the last place he was known to have visited was the farm of Albert Culbertson on Monday of last week where he obtained a meal. Coroner Dr. H. M. Hartman was notified of the finding of the body on Friday and after viewing the body decided that it was unnecessary to hold an inquest, the condition of the body indicating that he had been dead about three days and that death was due to natural causes. The body was taken to Emmitsburg last Saturday and interment made in the family lot in the Emmitsburg cemetery.

Mrs. LOVEY GENSLER died at her home near Guernsey on last Wednesday after an illness of seven months, aged 60 years and 12 days. The funeral services were conducted on Sunday morning at Benders church by Rev. T. C. Hesson, interment in Biglerville cemetery. She leaves a husband, two sons and two daughters, Curtis O. Gensler of Piqua, Ohio, Mervin A. Gensler of York, and Mrs. Elsie Smith of Gettysburg, Mrs. Mattie A. Walter of Biglerville.

Visiting Methodists.

On last Saturday afternoon at about 5 o'clock two sections of an excursion train from Baltimore arrived bringing 827 visiting Methodists who were in attendance at the General Conference in Baltimore. There was some slip in the arrangements for which Gettysburg is in no way responsible and there was not enough carriages in readiness to accommodate one-half the visitors. Gettysburg can always do her part if given a chance, but when nearly one thousand visitors are brought here with little notice of their coming, or their number, it is possible sometimes to find us unprepared. The carriages accommodated to their limit but a great many of the visitors had of walk. As the evening was beautiful with but a short time to be given to sight seeing, the visitors enjoyed the trip despite the unpreparedness for them. Before the train left in the evening Governor Hanley of Indiana and Governor Hoch of Kansas made short speeches from the platform to the train to the crowd of visitors and home people gathered there.

On Sunday morning Rev. Dr. Van Cleave of Decatur, Ill., preached in the Methodist Church of this place and Rev. Dr. Luwood of Los Angeles, Cal., occupied the pulpit of St. James Church in the morning and the Methodist pulpit in the evening.

Keep the Balance Up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. No body can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength, and endurance.

Unique Entertainment.

A unique entertainment by home talent was enjoyed by a large audience in Brusa Chapel on last Thursday evening. Miss Elsie Singmaster, who has established a name in the realm of literature in the past two years for her charming stories and sketches of Pennsylvania German life, read two of her short stories, "The Vaccination of Benjamin Gaumer" originally published in the Century Magazine and "The Substitute" a Gettysburg sketch which has not yet been published. The readings of Miss Singmaster presented a most delightful interpretation of her work and the characters pictured therein, and the vocal solos of Mr. Harold Lewars were received with enthusiasm.

Lower Court Affirmed

On last Wednesday the Supreme Court of Pennsylvania handed down a decision affirming Judge Swope in the decree distributing the estate of Vincent O'Bold, late of McSherrystown. Dr. R. N. Meisenholder of Hanover presented a claim of over \$1500 for medical services before the auditor, John L. Kendlehart, Esq., and after taking much testimony before the auditor of physicians of Hanover and McSherrystown, the auditor allowed the claim in full and the court upon exceptions to auditor's report, approved the finding of the auditor, which decision has been affirmed. Hon. D. P. McPherson represented Dr. Meisenholder and W. C. Sheely and C. J. DeLone, Esqs., the O'Bold estate.

An enjoyable time is promised to every body who will go to the Festival, on College Campus to be held by the Y. M. C. A. on Sat. evening 16, the Citizens Band will furnish music.

TOWN COUNCIL MEETING STEPS TAKEN TO OPEN ALLEY TO E. CONFEDERATE AVE.

Repairs to Fire Plugs Ordered—
Trolley and Boiler Inspection
Ordinance Passed.

The Gettysburg Town Council met on last Tuesday evening with all members present.

The Highway Committee reported progress in the matter of surface water on West street.

The Highway Committee with the Advisory Committee reported progress in the matter of permanent street improvements and asked for more time.

Councilman Butt made a motion that carried, that the Highway Committee be instructed to finish work between the railroad and David McGulgan's on Chambersburg street.

W. C. Sheely, Esq., appeared in council in behalf of the property owners on East Middle street in reference to an alley in rear of said street which terminates at government land and is practically closed. Motion of Councilman Butt that a committee of three be appointed to wait upon the Battlefield Commission in reference to opening said alley, and Councilmen Butt, Kitzmiller and Tawney were named as the committee.

Finance Committee presented the borough tax duplicate for 1908, and upon motion it was decided to place same in the hands of Tax Collector for the collection of taxes.

Councilman Trostle of the Property Committee reported an inspection of some of the water plugs and found some of them out of repair and some worthless. The Property Committee was instructed to continue repairs to plugs, and to buy new ones if necessary.

The auditors presented their report of the Borough Treasurer, and it was referred back to them to show the indebtedness of the town for the fiscal year, when that is shown the same to be made public.

Geo. A. McClellan came before council and asked for a fire plug on Steinwehr avenue. He also reported the chimneys in the tenement house of W. S. Dutera, Baltimore street, in a very dangerous condition to property. He reported an inspection of water plugs in the town.

The matter of blowing of horns by ice cream men and fakirs on the streets on Sunday and the matter of loose paper on streets was referred to the Burgess and Chief of Police.

An order for \$10 each was granted to police for the purchase of new uniforms.

The Ordinance Committee presented two ordinances which were officially balloted on, and were declared adopted.

First, That the proper legal action be taken against the Gettysburg Transit Company for misuses and non-uses of its franchises in the Borough of Gettysburg, and that the Borough Solicitor be authorized to commence action at once, by such legal proceeding as he may deem proper.

Second, Providing for the appointment of a boiler inspector and regulating the inspection of boilers in industrial establishments. The action provides for an inspection of all boilers in the borough once in twelve months, the inspector to be paid for every inspection, and not to receive a salary. All boilers as are unsafe or endanger the lives of the employees, to be remedied within ten days after the inspection.

MARRIAGES.

GROFF — STRASBAUGH.—On Tuesday morning of last week, May 5, at a high nuptial mass in St. Francis Xavier Catholic church of this place, by Rev. Father Hayes, Eugene Groff, son of Mr. and Mrs. Geo. Groff of Irishtown, and Miss Mary Strasbaugh, daughter of Mr. and Mrs. Charles Strasbaugh of the Washington House of this place, were united in marriage.

JOHNSTON — GOOD. — On Tuesday morning of last week at 10 o'clock at the home of the bride in Waynesboro, Joseph H. Johnston, book-keeper of the Bank of Waynesboro, and Miss Mary Peale Good, daughter of President D. M. Good of the Geiser Mfg. Co., were united in marriage by Rev. George Fulton. After the ceremony a wedding breakfast was served and bride and groom left in an auto to catch a train for New York on a wedding trip. The bride is the only daughter of Mr. and Mrs. D. M. Wood and one of the most popular young women of her town and was well known in Gettysburg, having been a visitor here and attending many of the dances held here.

WOESTEMEYER — DURBORAW. — The wedding of Rev. Frederick Woestemeyer and Miss Margaret E. Durboraw took place at high noon last Thursday in Bethany Presbyterian church, Philadelphia. Rev. William Patterson performing the ceremony. The maid of honor was Miss Margaret Lewis, and the best man was Charles Durboraw, a brother of the bride, while another brother, I. Newton Durboraw, gave the bride away. The bride was the daughter of the late Squire I. N. Durboraw of Two Taverns. The couple met three years ago, while engaged in mission work in the Kentucky mountains, and the friendship thus cultivated led up to the wedding. A short time ago Mr. Woestemeyer received a call to the pulpit of the Presbyterian church at Rossville, Kan. He accepted after obtaining Miss Durboraw's consent to an immediate marriage, and she will accompany him to his new field of labor.

FAHNESTOCK — STARNER.—On May 9th by Justice John L. Hill, of this place, J. Curtis Fahnestock of Huntington township and Miss Lela Starnier of Starnier's, Cumberland Co., Pa.

Short Session of Court.

President Judge S. McC. Swope and Associate Judges Geo. H. Trostle and C. D. Smith held a short session of court on Monday morning at which the following current business was disposed of:

The administrators and executors accounts as advertised by the Register were confirmed and in the estate of Calvin H. Beamer, late of Menallen township, Charles S. Duncan, Esq., was appointed auditor to make distribution to parties entitled to same.

The accounts advertised by the Probationary, being those of assignees and committees were confirmed except that of A. V. Redding committee of B. J. Redding which was continued by reason of exceptions filed, the wife asking that her claim be paid.

The Citizens Trust Company of Gettysburg was appointed trustee of dower fund in estate of Geo. L. Kauffman, late of Hamilton township.

The Court adjourned until next Monday, the 18th inst., being the regular May argument court.

Bids for Heating Opened.

The School Board of Gettysburg met in regular session on last Thursday evening and disposed of the routine business. The bids for heating plant for the proposed new school building were opened. Four bids were submitted, by Allan B. Plank, Wm. D. Armour and T. J. Winebrenner of this place and a Philadelphia party. Bids were submitted in two ways, with and without an automatic arrangement. Mr. Plank was the lowest bidder, but the contract has not yet been given out as the Board is undecided about the automatic system.

The Phi Kappa Psi fraternity of college gave a dance at the Eagle last Friday evening. It was one of the most delightful affairs given for some time. The dining room was beautifully decorated with palms and pennants, the effect was very pleasing. Eleven men from Dickinson College attended. About seventy people including patronesses were present. Music was furnished by the College Orchestra.

New Mail Service Tested on W. M.

V. J. Bradley, Superintendent of U. S. Railway mail service, of New York City, McClellan Wade, Assistant Superintendent, of New York; E. J. Ryan, Superintendent, of Boston, Mass., and H. Wickersham, Chief Clerk, of Railway mail service, of Harrisburg, made an official test of the mail delivery device patented by Malden G. Beard of Hanover on last Friday, on the main track of the W. M. Railroad near Hanover. About 200 persons witnessed the test

The iron arms for holding the pouch preparatory to delivery were affixed temporarily to a W. M. mail car, and on temporary posts stationed along the track was the device for receiving the pouch. The test was made with a train comprising an engine, a mail car and a passenger coach. Three trials were made at high speed, all being successful in placing the pouch as desired, but at the third trial one of the arms of the machine broke, which put an end to the test.

Persons who were present, who have had experience in the railway mail service, were of the opinion that the principle of the device is correct.

Battle Relic Refound.

Two weeks ago the COMPILER published an item that J. A. Frazier in digging the garden of Mrs. Young on the Emmitsburg road had found a parrot shell and now it appears that the shell was only refound. Ira M. Young, of Philadelphia, writes us that he found the shell and buried it in the garden over 20 years ago. One day in roaming over the field I picked up the shell and took it home. As I was a small boy my mother was afraid it might burst and that I might get hurt, and told me I would better throw it away. I thought of a good place, a place where I supposed I could get it at any time if I would bury it in the lot, and in order to remember the spot marked it, but as time rolled by my marker was removed and I could never locate the place. Every time I made a visit home in the past 15 years I hunted for the shell but never found it, but would be glad to have it in my possession.

Narrow Escape From Asphyxiation.

Allan B. Plank had a very narrow escape from asphyxiation on Monday morning. He was at work in a ditch on Baltimore street, making a gas connection, when he was overcome in the ditch from the escaping gas. He was lifted out of the ditch and worked with until consciousness returned and then taken to his home and it was not until the middle of the afternoon that all symptoms of the drowsiness had disappeared and he had recovered from the effects of the gas.

JAMES GETTYS, PROPRIETOR

LEAVES AN ESTATE OF OVER TWELVE THOUSAND DOLLARS.

Will of the Proprietor With a Photographic Reproduction of His Signature.

As said in the last issue the amount of the vendue was not the entire estate of James Gettys. It represented the live stock, farming implements and household property. The inventory of this same property can not be found among the papers of record in the county. Turning to the account of Alex. Cobean, surviving executor of the last will and testament of James Gettys, it appears that the personal property sold at the vendue for \$2611.45 had been appraised when inventory had been taken at \$2461.63, so that the executor had a gain at the vendue of \$149.81.

The real estate of James Gettys is sold by his executor on November 23, 1816, and realized the sum of \$6280.18. In addition the executor charges himself with having received proceeds of certain bonds and with book accounts collected of \$709.28. With dividends from the turnpike stock of \$171, dividends from the bank stock of \$290.12, and with proceeds of the sale of the bank stock of \$675. When the account of the executor is filed March 22, 1822, the total estate real and personal of James Gettys, proprietor, amounted to \$12,173.02, surely a goodly accumulation for those days.

Turning to the credit side the interesting fact appears that James Gettys, proprietor of the town, who had given land to the town to build a court house upon, who had deeded to the county the lot upon which the jail stands, who had donated ground upon which a union church stood, who had presented to the county he had helped to create quit rents that yielded that county over \$200 annually, did not have enough property to settle fully the debts and claims against the estate. In other words, his public spirit, his exploitation of his town and county had not paid him, but this fact in no way reflects upon this virtue.

Alexander Cobean takes credit for 162 items, the larger number of them being for small amounts, and the nature and character of these debts and claims does not appear as they are only indicated by names of party to whom paid. The larger sums for which credit is taken are evidently loans of the proprietor, so that it may be said that the men who helped James Gettys to finance his enterprising spirit were John B. McPherson, John McCaughy, James Cobean, John Murphy and Wm. Stennions. Credit is taken for certain losses and matters not finally closed and an allowance is made to the executor of \$575.00 and the result is that the estate is indebted to the executor in the sum of \$1985.78.

It would certainly appear that the executor had some way to recoup in part if not wholly. No second or final account can be found but some years later James Gettys, the son, became administrator with the will annexed of James Gettys, proprietor, and a small amount comes into his hands, but when an account is filed, there is no estate in his hands but a balance due the administrator.

It cannot be said that the estate of James Gettys was insolvent for apparently all his debts were paid in full. There was no pro rata dividend to creditors. There is only one item in the entire account which would trace any part of his estate to his sons and that is a single item of \$133 paid to James Gettys.

The pieces of paper upon which the account was stated are not without interest. It is made of five pieces of paper the total length being a few inches less than two yards or to be exact, 66 inches. In the days when this account was filed there was no convenient machine to fasten pieces of paper together, the sealing was done with wax wafers and each of five pieces of paper are fastened to the following piece at three points with three red wax wafers.

Probably the most interesting find among the old records was the original will of James Gettys. The will was made during his last illness. He was taken sick on March 5, 1815, after his return from church. He executed his will on Saturday, March 11th, the day before the death of his mother, and two days prior to his own death. The witnesses to the will were James Rowan, Mary Paxton and Alex. Russell, and the will was probated on March 18, 1815, before Register of Wills James Duncan.

An interesting fact in the life of the proprietor appears by his will, that he was a slave holder, and he bequeaths his one slave to his wife. Slavery came to an end in Pennsylvania in 1820 and the proprietor must have been among the last owners of slaves in the county. This slave, Sidney, was a young mulatto girl at the time of the death of the proprietor, and lived many years afterward and is still well remembered by a number of the citizens of this place. She was a bright woman with many of the old-fashioned virtues of her people. She lived many years in a small cabin where Breckinridge street extended begins. She married one of her race by name of O'Brien and was well known in this section as Sidney O'Brien. She had but one daughter, to whom she gave in part the family name to which she had belonged as slave and this fact would indicate that her experiences in the Gettys family as a chattel must have been pleasant ones. The daughter, Getty Ann O'Brien, married Greenberry Stanton, and was the mother among other children, of Samuel Stanton of this place.

It is to be noted that the signature to the will that follows is a photograph of the original signature of the proprietor to his will and that the dark spots in the photograph are reproductions of the stains and rust of almost a century on the original paper.

The Girls.
Hear the laughter of the girls—
Pretty girls!
What a fund of merriment each ruby lip unfurls!
How they chatter, chatter, chatter.
In the balmy air of night!
While the stars that over-patter
All the heavens hear their clatter
In a soft and mild delight;
In a softer-kind of rhyme,
Keeping time, time, time,
To the tin-tin-tin-tin that, unceasing,
ever purrs
From the girls, girls, girls,
Girls, girls, girls,
From the will, capricious, saucy,
jaunty girls.

See the flirting of the girls
Radiant girls!
How the softened brain of lover wildly whirls!
Through the mazes of the ball,
Up and down the stately hall!
How he skipeth to and fro,
And perspires!
Would that we could tell the idiot all
we know
Of the fires
Into which the false one hurls
Each new victim—see the flame, how
it swirls!
How it curls!
How it curls!
Better far that they were churls,
Than fall victims to the girls,
To the prattle and the rattle
Of the girls, girls, girls,
Girls, girls, girls—
To the sacking and heart racking of
the girls! —St. Louis Times

Damage for Auto Accident.
Thomas Nelson, of Chambersburg, well known in this county as a bridge contractor was the defendant last week in a civil case tried in the courts of Franklin County. The case was one for damages for injury received by an automobile driven by Mr. Nelson.

The plaintiff, Miss Marie Kauffman a dress maker testified that on May 23, 1907 after getting off a trolley car she was struck by the auto and thrown from curb to sidewalk receiving a cut hand and a cut on her ankle, which resulted in the leg becoming stiff and was in bed two weeks, suffering pain in her back and neck, that for two months she went to the hospital daily for massage treatment, and that she was still unable to walk well her right ankle being weak.

Defendant Nelson on the witness stand said his machine did not strike the woman, only the mud guard brushed her dress but admitted he saw her lying down on the sidewalk and went back to see whether she was hurt.

The jury decided that even brushing dress with mud guards so that hand and leg were injured was sufficient basis for a verdict and they gave the woman last Thursday \$4,666.95 damages. It is the first case of damages for auto accident in Franklin County and will have a wholesome effect towards more careful auto driving.

Royal Arcanum Meeting.
Preparations are being made both here and elsewhere for the meeting of the Associated Councils of the Royal Arcanum at Gettysburg on June 23. This will not only be the regular quarterly meeting of the Associated Councils, but it will also be the thirty-first anniversary of the founding of the order, and this event will be celebrated in connection with the regular meeting. It is expected that this will be one of the most important meetings of the Royal Arcanum ever held in this part of the state. The Royal Arcanum was born nearly 31 years ago in Boston with a membership of nine earnest men. Now it has a membership of 250,000 in the United States. In twenty years it has paid out a total of \$120,000,000 to the families of 45,000 deceased members. It collects current cost and just enough in excess to make good the benefit certificate. It is established on the basis of that no fraternal organization has the right to create an outstanding liability that cannot be paid at maturity. There is now the sum of \$6,000,000 in the treasury as an emergency fund over and above liabilities. Its rates are founded upon the experience of the order during a term of thirteen years. The Royal Arcanum is fifth among all commercial and fraternal companies of the world in the amount of outstanding insurance—\$500,000,000. Numerically it is second among all the insurance companies of the world, the New York Life and all the old line concerns included. It provides insurance at the lowest possible cost consistent with safety.

Surveying Road.
Last week Edward S. Frey of York, an engineer in the employ of the State Highway Department, and a corps of assistants, began the survey of the stretch of road known as the Bonanza road, from Brushstown to the Conowingo Creek, a distance of 1.15 miles. The supervisors of Conowingo township Adams county, near Hanover, have applied for the improvement of the highway under the Sproul good roads law, and a preliminary survey is now being made to be approved by the Highway Department. A petition for the improvement of the road to Mt. Rock is also in the hands of the department.

IF WOMEN ONLY KNEW
What a Heap of Happiness it Would Bring to Gettysburg Homes.
Hard to do housework with an aching back.
Brings you hours of misery at leisure or at work.
If women only knew the cause—that Backache pains come from sick kidneys,
"I would save much needless woe."
Doan's Kidney Pills cure sick kidneys.
Gettysburg people endorse this:
Mrs. John T. Ohler, living at 116 W. Middle St., Gettysburg, Pa., says: "I was troubled with weak and disordered kidneys for over a year. My back ached constantly and at times the pains were severe and extended into my head. I suffered from chills, was often very dizzy and added to my afflictions was a too frequent action of the kidneys. Doan's Kidney Pills were highly recommended to me, I procured a box at The Peoples Drug Store and began taking them according to directions. They helped me from the first, I continued using them and in a short time was without a symptom of the trouble. I take pleasure in recommending Doan's Kidney Pills to others suffering from kidney trouble.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

REVIVAL OF HEMP GROWING CULTURE OF EARLY DAYS OF THE CO. FOUND PROFITABLE.

Expenses in Experiment Show That Hemp Could be Made a Very Valuable Crop.

The recent experiment in the growing of hemp in Conowago township has not only proven very interesting, but has demonstrated that a very valuable crop can be grown in Adams Co. soil. It may be said that this was no new demonstration for in the early part of the last century much flax and hemp was grown in the county but during the past fifty years its cultivation had wholly died out.

The recent experiment came about because of the fact that the Hanover Cordage Company is compelled to go into the Southern market for this product and this led them to an investigation of soil and conditions required in the growing of this product. They opened correspondence with the Agricultural Department of the government at Washington, the officials of whom evidenced interest, which resulted in the sending of Lyster H. Dewey, a representative of the department to the neighborhood of Hanover last spring, who made an examination of soil and climate conditions. Mr. Dewey was convinced that hemp could be successfully cultivated and would prove profitable to raisers.

As an experiment, the Department furnished a quantity of seed which was sowed last summer on strips of land on farms of Dellone & Gitt and S. L. Johns in Conowago township. A grain drill was used in planting the seed and the crop was cut with a mower toward fall. Hemp is an annual herb of the nettle family and varies in height from six to twelve feet. It is not the height which is desired, however, but hemp is graded according to the quality of the fibre. Ordinarily but two months are required for the crop to mature, shooting from a green plant into a stalk about the thickness of a lead pencil. There are male and female stalks, the male buds blowing to the female stalks, which produce the seed.

When the crop is cut it lies on the ground for several weeks for the purpose of rotting the stalks. Rain and sun contribute to this condition. It is then gathered in shocks like corn and left stand until ready for breaking. This process consists of removing the fibrous skin or bark, which represents the lint, afterwards used for weaving coarse cloth, and in cordage.

A power machine has been invented to replace the hemp-brake or "hackle" formerly used. The machine consists of two cylindrical steel rollers, between which a small bundle of stalks are run by the operator. The rollers break the "hurd" which is the inner part of the stalk. These broken bits are thus separated from the fibre which returns to the operator by a reversal of the rollers. The lint is then knotted and placed on piles ready for delivery to the mills.

The two crops in this place being ready for breaking, Mr. Dewey came back with J. W. Poindexter, of Cynthiana, Kentucky, an expert hemp-grower, who superintended the breaking. Mr. Poindexter declared the hemp on the Johns farm as fine as any product he had seen anywhere, although he found that it had not been given sufficient time to rot; consequently the breaking was not as satisfactory as it might have been.

The average yield per acre is a thousand pounds, the market price of which is six cents a pound, or \$60 an acre for the grower. There is not a crop on the farm as profitable nor raised with so little attention.

The yield from 5.8 of an acre on the Gitt & Delone farm was 960 pounds of lint, and on the Johns farm nearly two acres were planted, and the yield 2250 pounds. The tow which results from broken stalks is also used at cordage mills and sells at one-half the price of the hemp.

Mr. Johns has already contracted to devote 16 acres of land to hemp raising on his several farms in this section. This is the season for planting, and farmers will do well to inquire into the profitableness of hemp growing.

Mr. Johns' Statement.

The undersigned desires to make a correct statement as to cost of production of hemp raised on 1.34 acres of land. From the foregoing acreage after crop had been cut, shocked and put through the breaker, I hauled to the cordage mill in Hanover 2250 pounds of lint and 540 pounds of tow for a total of 2790 pounds—an average of 1594 pounds per acre. This is an unusual yield, as rarely has a crop reached 1500 pounds to the acre, the average even in Kentucky being 1000 pounds, which is counted a good yield.

The cost of raising and marketing the crop was as follows:

Interest on investment of land	\$11.25
Preparing ground for sowing	2.75
Fertilizer	2.00
Seed	8.00
Planting	.50
Harrowing, shocking, relaying, re-banding, re-shocking	6.25
Hauling	17.50
Gasoline for same	2.50
Hauling to market	1.75
Total	\$50.25

From this must be deducted about \$20 for two tons of offal, which will make fairly good fertilizer for the raising of any other crop. This will show an actual expense of less than \$30 per acre, including labor and interest on land.

It now remains for the purchasers of hemp to deal fairly with farmers and pay the highest market price for same. The net proceeds per acre of hemp yield on my farm at the present market price would be about \$35.50.

The above statement is not made for show, but for the enlightenment of my neighbors who may be interested in the culture of hemp.

Potatoes Grown in a Hurry.

A potato wizard, who has found a method for making the "spuds" grow in a hurry, has turned up in Connecticut.

William H. Sheldon is his name, and he has a farm on the Housatonic river. For several seasons he created sensations by getting the first crop of new potatoes into the market two or three weeks ahead of his neighbors.

How he accomplished this was a deep mystery to everybody. Everyone tried to solve it and failed, and now Sheldon has relieved their anxiety by removing the veil around his operations.

During the last week in February or the first week in March he takes about twenty bushels of his best potatoes from the cellar, and in a warm room, which he retains for this purpose, places them close together on the floor, stem end down. The heat and light soon start the growth of the sprouts.

In his kitchen near the stove, he has constructed a rack which contains several board trays, each tray being four feet long and 14 inches wide. This he styles his "incubator."

On these trays the potatoes are laid in the same manner as they are arranged in the room. In about two weeks the leaves start and the potatoes are taken out into the field and set out in the same manner as celery or tobacco plants. Here is where the back-breaking part of the process comes in, for it is no easy matter to set by hand an acre of potatoes.

The ground is prepared in the same manner as for ordinary potato planting. Fertilizer is placed in the furrows and through these furrows a heavy chain is drawn to thoroughly pulverize the earth and to mix earth and fertilizer.

The rows are three feet apart and the potatoes are fifteen inches apart in the rows. They are entirely covered with earth, and in two or three days will break through the soil.

This process, although requiring a good deal of time and attention is made profitable, according to Mr. Sheldon, by the increased price for which the potatoes can be sold.

McSherrystown Cigar Makers Union

It is safe to say that no other trade union in America has so completely perfected its methods of doing business and paying benefits as the Cigar Makers' Union.

They are the originators and principal promoters of the union label idea.

Instead of paying all of their benefits to a member's heirs, they pay strike benefits, sick, death, traveling and out-of-work benefits. They have succeeded in establishing a system that resulted in an increase of membership during the hard times, while other trades unions lost heavily.

When a man becomes a member of the Cigar Makers' Union and pays his dues, he receives in return, the power of the organization in the protection of his wages; when he is sick his union provides for him, at his death sufficient is paid to his family to tide them over; when in search of work, he is assisted by a "traveling" benefit and when hard times come, and when members of other unions are dropped out because of a lack of employment, the cigar makers receive an out-of-work relief.

June 25, 1890, Cigar Makers' Union 316, of McSherrystown, was organized with a membership of twelve. Today its membership numbers 910, with sick benefits aggregating about \$32,000.

The receipts last year were \$17,000; total benefits \$10,000. This organization has \$36,054.02 deposited in each bank of Hanover and the McSherrystown bank.

Although this organization has had numerous difficulties with employers, all but three factories, involving but few members, were always amicably adjusted within a short period of time—to the mutual benefit of employers and employees.

From this it will be seen that the cigar makers believe in providing food as well as coffins for themselves. They protect a man's wife and children from want, as well as his widow and orphans. Indeed, a more meritorious organization does not exist than the Cigar Makers' Union No. 316, of McSherrystown.

Turnpike Free May 1st.

May 1st under the conditions of the recent settlement in the Dauphin Co. court, the title passed from the Carlisle & Hanover Turnpike Co. to the County of Cumberland and the highway was thrown open to the public.

The purchase includes that turnpike from Carlisle as far as to the Adams county line. Beyond that the company still owns the turnpike and tolls will be collected as before.

A great fight was made over that piece of highway, ten miles long, and which was eventually bought for \$10,000. But the people finally won out and, since that piece of pike was profitable, it may be considered a good purchase, especially for that section of the county.

The Carlisle & Hanover turnpike enters Adams county in Latimore township and runs in that and Huntingdon township to York Springs. Then through Round Hill, Hampton, townships of Reading, Hamilton, and is the dividing line between Oxford and Lewisburg townships and striking York county, continues through Hanover. The portion of turnpike in this county has three toll gates one near York Springs, another near Hampton and a third below where the pike crosses the pike between New Oxford and Abottstown.

School Examinations.

As many school examinations will soon take place it would be well for all teachers to hearken to the wise words of Superintendent Schaeffer. He said in a speech to teachers in Philadelphia only a few days ago that "examinations are no test of a child's knowledge. Where examinations are the rule the child does not study to master the subject but to answer questions. Examinations are a last resort of incompetent teachers, and delayed the true educational system. The child's ability to go into the next grade is the true test and of this the teacher should be the judge. If there must be examinations let them be held by no one except the teacher." How refreshing to hear a leader in the educational world flay examinations, one of the horrors of childhood, and because of all its horridness necessarily wrong. The teacher, who after having a child for months, and has not arrived at a judgment whether the child is entitled to go into the next grade, is either not "onto his or her job," and is willing to escape the responsibility of the teacher's work by shifting the decision to the examination horror. The child appreciating this lack of square deal in the examination becomes an easy victim to all kinds of deceptions to live through the horror. There is no better authority than Dr. Schaeffer. Turn the examination out of doors to die the death of things that have had their day.

Attended Papal Mass.

Mr. and Mrs. A. Leo Knott, of Baltimore, well known here, are traveling in Europe. On Easter Sunday they received cards of admission to the Sistine Chapel, and had the honor and privilege of being present at the mass celebrated by Pope Pius X and receiving communion at his hands. The Pope entered the Chapel attended by a large retinue of officers of his household, members of the Noble Guard and prelates. The assemblage was a distinguished one, composed of the members of the Vatican aristocracy, diplomats accredited to the Holy See and visitors to Rome. At the close of the ceremonies, which lasted an hour, the Pope imparted the papal benediction to those present.

CAN YOU BELIEVE YOUR SENSES?

When two of them, taste and smell, having been impaired if not utterly destroyed, by Nasal Catarrh, are fully restored by Ely's Cream Balm, can you doubt that this remedy deserves all that has been said of it by the thousands who have used it? It is applied directly to the affected air-passages and begins its healing work at once. Why not get it to-day? All druggists or mailed by Ely Bros., 56 Warren street, New York, on receipt of 50 cents.

Team Smashed.

Last week a two horse team belonging to Diehl Bros., millers, of New Oxford, became frightened at a trolley car in Hanover. The horses ran in front of the car, breaking off the wagon tongue and releasing the horses. They were caught soon after without injury to either one. The driver, Martin Diehl, was thrown to the ground in his efforts to stop the frightened animals, but sustained no injury.

Seminarian Accepts Call.

Rev. J. Strook Bonnell, who graduates this month from Gettysburg Theological Seminary, has accepted a call from St. John's Lutheran church, Boiling Springs, to become its pastor. He is a young man of considerable ability. He comes from New Jersey. Since the removal of Rev. Ernest about six months ago, the church has been without a pastor.

Rung on Ladder Broke.

Mr. Ephraim Wolford met with a painful accident at his home near Cedar Ridge, Mountpleasant township, one day last week. The gentleman ascended a ladder to do some repairing at his dwelling when a rung of the ladder broke, and in endeavoring to save himself from falling Mr. Wolford struck one of his hands on a protruding nail. The hand was badly torn and lacerated. The wounds were very painful.

Treated for Defective Eyes.

Miss Edna Smith, daughter of Mrs. Josephine C. Smith of near New Oxford, was taken to the City Hospital, Baltimore, by her physician, where she will receive treatment for defective sight. Miss Smith and her mother had been spending some time in Lancaster, and returned to their home near town in March, since which time the young lady has been very ill. She has now almost recovered from the illness, but it has left her eyesight considerably impaired, the sight of one eye being almost entirely gone.

The Walking Cure.

Are you fat? Walk.
Are you thin? Walk.
Are you nervous? Walk.
Have you no appetite? Walk.
Or do you "gormandize"? Walk.
Have you lost interest in life? Walk.
Is the ball collector after you? Walk.
Maybe your poor stomach won't work. Walk.
Or perhaps your liver has gone on a strike. Walk.
Cupid may have put a kink in your suffering heart? Walk.
In short, walking seems to be the remedy for all ills, save, perhaps, broken legs.

New Disease Among Horses.

State and Federal veterinary experts last week held a conference in Butler, Pa., to consider means of stamping out a disease known as lymphangitis, first found among horses in Butler six months ago. In this party were: Dr. Leonard Pearson, State Veterinarian, Philadelphia, Dr. S. D. Melvin, Chief of Bureau of Animal Industry, Dr. R. W. Hickman and A. Eichborn, Washington, D. C., Dr. J. T. Claris, Buffalo, N. Y., H. P. Rogers, Boston, Mass., Wm. H. Kelly, Albany, N. Y., Dr. John R. Mohler, Washington, D. C., Dr. J. C. McNeil, Pittsburg, Dr. L. G. Marshall, Harrisburg, and Drs. T. G. Brittan and Geo. W. Greenfield, of Butler. Afflicted animals were examined and that evening the party left for Brookville, Pa., for further examinations.

Within six months the disease has spread over ten (10) counties in Western Pennsylvania, the worst affected districts being Butler, Venango, Armstrong, Clarion and Jefferson counties. Many animals have been ordered slaughtered and over 300 quarantined. So alarming did the spread of the disease become that the United States authorities were appealed to. The Veterinarians issued an appeal to all owners to assist in the campaign by keeping a close watch for the symptoms of the disease and report sickness at once. This is the same disease that the Compiler called attention to about six months ago, when Dr. Moriarty was instructed by the Livestock Sanitary Board to keep a close look-out for Adams county and report all cases at once. The symptoms were given in the Compiler at the time the disease was reported, and will be republished if it is found to be necessary.

New Littlestown Bank.

The First National Bank of Littlestown looks like a sure thing. Last week those in favor of establishing a second bank in Littlestown met and decided to apply for a National bank charter. Those interested in the undertaking are A. G. Keagy, Geo. F. Dutta, D. E. Burke, Geo. S. Kump, Abia Smucker, S. D. Mehring, Calvin Robert, Robert H. Wilson, John A. Shorb, Wm. H. Colchouse, Edward

Lippy, George Z. Gitt and Dr. S. B. Weaver. It is said a number of others will be added to this list. A site for a bank building is being looked up.

WANTED 50 MEN AND WOMEN

L. M. Buehler the enterprising druggist is advertising today for fifty men and women to take advantage of the special half price offer he is making on Dr. Howard's celebrated specific for the cure of constipation and dyspepsia, and get a fifty cent package at half-price, 25 cents.

So positive is he of the remarkable power of this specific to cure these diseases, as well as sick headaches and liver trouble, that he agrees to refund the money to any customer whom this medicine does not quickly relieve and cure.

With Dr. Howard's specific at hand you can eat what you want and have no fear of ill consequences. It strengthens the stomach, gives perfect digestion, regulates the bowels, creates an appetite, and makes life worth living.

This is an unusual opportunity to obtain 60 doses of the best medicine ever made for half its regular price, with the personal guarantee of a well-known business man to refund the money if it does not give satisfaction.

If you cannot call at L. M. Buehler's store today, send him 25 cents by mail and he will send you a package promptly, charges paid.

Mrs. Donald C. Chester returned to New York last Saturday, after spending a week with her uncle, F. N. Frommeyer.

HEAVY RAINS.

EAST BERLIN, May 11th.—Last Friday afternoon a heavy rain went over this place and accompanying hail did some damage to some rye fields about three miles below town.

On Saturday evening a heavy rain storm passed between this place and Abbottstown and L. S. Miller, Cashier of the East Berlin Bank was caught in it and for a time feared that his buggy would be upset by the hurricane.

Corn that was planted early is up and looking well. Late planted corn in low ground will have to be replanted by reason of rains and much of rotting. Potatoes are slow in coming up.

LIST OF SNOWS OF WINTER.

BARLOW, May 11th.—The following is a list of snows during the winter of 1907-08 with the dates upon which each fell and the number of inches: Nov. 14, flakes; Nov. 24, 5 inches; Dec. 1, 2 inches; Dec. 3 and 4, 4 inches; Dec. 14, 4 inches; 1908—Jan. 4, 1 inch; Jan. 23, 3 inches; Feb. 1, 6 inches; Feb. 7, 8 inches; Feb. 19, 8 inches; Feb. 23, 3 inches; Feb. 26, 1 inch; April 3, snow storms. Total 46 inches.

R. H. Black of Cumberland township on last Saturday killed 2 black snakes one 5 ft. 4 inches and the other 5 ft. 6 inches, and on the next day at the same place saw another black snake much larger but did not succeed in getting the third one.

Eugene S. Kelly, of this place, purchased a new piano from Geo. Spangler. Now for music.

Our brother correspondent for the Independent, how big he feels since he can sport a new runabout and a new set of harness.

Wm. H. Cromer is having a portion of the interior of the house on his farm beautified by decorating its walls with paper.

Memorial Day services will be held at Mt. Joy church, Friday evening, May 29, at 6 o'clock, sharp, J. L. Williams, Esq., of Gettysburg will deliver the oration.

WEAK FROM SUFFERING UNABLE TO PERFORM WORK

Discouraged After Spending Money Without Benefit—Found Help at Last.

Mr. Earl McCoy, living at 1506 So. Branson Street, Marion, Ind., has passed through an experience that is being duplicated every day in every town and city of any consequence in the United States. It furnishes abundant proof of the correctness of L. T. Cooper's theory in regard to the degeneracy of the human stomach, and shows conclusively the merit possessed by his New Discovery medicine to restore the weakened system to full strength and vigor.

Mr. McCoy says: "For a long time I have been a sufferer from stomach trouble. I was unable to retain any food, and became so weak and run down that I was compelled to stop work. My system was nearly a wreck, and I had tried so many remedies and spent so much money without deriving any benefit, that I became dis-

couraged and gave up hope of ever being well again.

"I heard a great deal of Mr. Cooper's theory and medicine, and after much hesitation decided to try it. The result was a pleasant surprise. Before I had taken half of the first bottle I was able to retain all food eaten, and my strength began to return. I have taken six or seven bottles, and am feeling fine. I eat and sleep well, do not cough at night, and am able to perform a hard day's work. I can cheerfully recommend Cooper's New Discovery, for it has done wonders for me."

The Cooper remedies are meeting with remarkable success wherever they are introduced. They are without a rival in toning up a weakened and run-down system. We sell them—The People's Drug Store.

PERSONAL MENTION

—Rev. W. W. Anstadt of York was the guest of his brother, Rev. Henry Anstadt, of this place last week.

—Another automobile in the county, Lewis Hafer of Abbotstown having bought a new Maxwell automobile.

—The College Mandolin Club drove over to Taneytown last week and gave an entertainment in the Lutheran church lecture room which greatly pleased the audience.

—The Gettysburg Classis of the Reformed Church began the 26th annual session in St. Peter's Church, North Codorus township, York county, yesterday, and will continue in session until tomorrow.

—Bad weather spoiled the Baltimore excursion on last Thursday, as only a total of 36 persons took it in along the entire route.

—Charles Kappes is at a Baltimore hospital for treatment for a foot which was injured by a nail some time ago.

—The scaffolding around the monument to the U. S. Regulars at the Bloody Angle has been removed and the graceful needle presents a very handsome appearance.

—Rev. Eugene Haltermeyer of Conowago Chapel was of the party last week welcoming Rev. Dr. Hassett, rector of the Cathedral at Harrisburg upon his arrival from a trip through the Holy Land.

—Miss Frances Bushey and Miss Wilters of East Berlin were visiting Lockwood over Saturday and Sunday.

—D. B. Allen and wife, of Littlestown, were here on Friday evening to attend the dance given at the Eagle Hotel by the Phi Psi Fraternity of College, of which their son, Ward, is a member.

—The Clipping Party of the Loyal Temperance Legion last week proved to be a very enjoyable and successful entertainment.

—Rufus B. Bushman of this place, spent Sunday with friends in York.

Thin Folks Made Fat.

Good, healthy flesh can only be gained by the use of the proper food, together with natural action of the organs of assimilation. Nine people out of ten in order to weigh as much as they ought and be perfectly healthy, should use Samose, the great flesh-forming food and health restorer. Weigh yourself before commencing to use these little tablets, and see how your weight increases from week to week.

Samose does not contain a particle of starch or pepsin, nor is it a cod liver oil preparation, such as is usually recommended to make people fat, and which does not build up good healthy tissues. Samose has valuable flesh-forming properties, tones up and strengthens the whole system, helps the food that is eaten to be assimilated in a natural manner, and absolutely restores health to all the organs.

If you are not perfectly satisfied with the results from Samose, L. M. Buehler will return your money without any questions.

AUDITOR'S NOTICE.

THE SUMMER VACATION GUIDE.

The summer vacation is the bright spot in the dull routine of the year's work. It breaks the monotony of the daily round, and cheers and invigorates for the strenuous life ahead.

America abounds with delightful summer resorts in valley, on mountain, and beside the sea. The Atlantic coast line from Labrador to Cape Hatteras contains the greatest number of resorts devoted entirely to the pursuit of pleasure and health in the world.

One may purchase from Pennsylvania Railroad Ticket Agents, excursion tickets to over eight hundred of these resorts, covering all the desirable places, from the rock-bound bays of Newfoundland to the gentle, sandy slopes of the Virginia beaches; from the White Mountains of New Hampshire to the Cumberland Mountains of Tennessee; in the wilds of Canada, along the shores of the St. Lawrence and the Great Lakes.

The famous seacoast resorts of New Jersey—Atlantic City, Cape May, Wildwood, Ocean City, Sea Isle City, Ashbury Park, Long Branch, Spring Lake, Seaside Park, Beach Haven and others, so well known that description is superfluous—are among the most popular and the most easily accessible resorts in the country.

The Pennsylvania Railroad Summer Excursion Book, to be obtained of Ticket Agents at ten cents a copy, or of the General Passenger Agent, Philadelphia, by mail postpaid for 25 cents, describes them all and gives the rates and stop-over privileges allowed on tickets.

Special May Da Bargains

The howl of calamity, we are thankful to say, has not struck our community--our sales have not been effected--"Everybody works" same as last year, and there is no reason for any hard times--and there are none in Gettysburg.

The actual trouble at many points, where the people are out of work, has forced prices on many articles of merchandise much below the level of that ruling a month ago. It was, very recently, our fortune to help close out lots of goods greatly under price--and we start the month of May with Bargains that we believe will make business here, while they last. Do not delay looking them up.

ALL OVER THE COUNTY

**COOL WEATHER HAS WEED-
ED OUT POOR FRUIT BUDS**

**Husking Corn in April—Latimore
Township Farmer Has Fine Collec-
tion of Indian Relics.**

The fruit trees throughout the county never presented a more beautiful appearance when in blossom and reports from every source unite in the statement that there has never been a more profusion of bloom. Exactly what harm the cold spell has done the trees does not yet appear. The cold nights were dry and it is believed that only the poorest buds succumbed and that the fruit that matures will only be helped. Early varieties of cherries are believed to have suffered severely so that a small or no crop can be expected of them.

A very unusual sight was presented on the farm of J. Dennis below Bermudian. He had 18 acres of corn to husk before he could sow his oats and he finished the husking late in April.

W. E. Jacobs of Latimore township has one of the finest collection of local Indian arrowheads in the county. His farm was one of the favorite camping grounds of the Indian and from time to time Mr. Jacobs has plowed out the relics preserving them, so that his collection now is quite large.

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn out and all run down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

Twenty-five maple trees were planted around the Chestnut Grove Lutheran church in Latimore township by members and friends.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by the People's Drug Store.

The tile mill at Aspers has been busy with orders recently.

Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Pain Balm will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cents sizes for sale by the People's Drug Store.

Twins boys were recently born to Hayden Kemper and wife of near Heidersburg.

A Californian's Luck.

"The luckiest day of my life was when I bought a box of Bucklen's Arnica Salve," writes Charles F. Budahn, of Tracy, California. "Two 25 c. boxes cured me of an annoying case of itching piles, which had troubled me for years and that yielded to no other treatment." Sold under guarantee at the People's Drug Store.

A hen belonging to the Ginter family near New Oxford dropped an egg, which being boiled and outer shell cracked another egg with hard shell was found on the inside.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug Law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. People's Drug Store.

Dr. Wm. E. Wolf of Arendtsville was very much bruised from kick of a horse.

As at many people imagine they have heart trouble when the fact is that the whole trouble lies in the stomach. The pains in the side around the region of the heart are not necessarily heart trouble. We suggest that you start with the stomach whenever you feel a depression after eating or when ever your food seems to nauseate take Kodol. It will not be very long until all these "heart pains" will disappear. Take Kodol now and until you know you are right again. There isn't any doubt about what it will do and you will find the truth of this statement verified after you have used Kodol for a few weeks. It is sold here by the People's Drug Store.

It is said Henry Raffenberger will not rel aid his chair factory at Bowder recently destroyed by fire.

Bendersville Bank.

The Bendersville National Bank had a very successful opening on last Thursday. It was an occasion that will be long remembered in that town. It brought to that town during the day a large number of people interested in the bank.

Ira L. Taylor of the Gettysburg National Bank has been assisting his brother H. J. Taylor, who is the cashier of the Bendersville Bank in getting the bank started along the best business methods.

In the few days the bank has been going the deposits have amounted to about \$8,000. The capital stock of \$25,000, is about fully paid in, so that the bank starts off with bright prospects.

Hurt in His Mill.

John W. Wierman of Huntingdon township fell through a hole in the first floor of his mill and dropped a distance of about seven feet to the ground. He was unconscious for over two hours after the accident and his physician found that two ribs had been broken and a number of painful bruises sustained.

Railroad Sold.

The directors of the Washington, Frederick and Gettysburg Railway Co. have purchased from the Monocacy Valley Railway Co. the latter's road running from Catactin Furnace to Thurmont, about four miles. The price paid was \$35,000. The sale gives the Washington, Frederick and Gettysburg road a line from Frederick to Thurmont, except a gap of three miles between Lewistown and Catactin Furnace.

A child of Roy Delp of Idaville was scalded by spilling a cup of hot coffee over the chest.

The trouble with most cough cures is that they constipate. Kennedy's Laxative Cough Syrup does not constipate, but on the other hand, its laxative principles gently move the bowels. It is pleasant to take and it is especially recommended for children, as it tastes nearly as good as maple sugar. Sold by People's Drug Store.

When your Watch Stops

You cannot make it go by shaking it. When the bowel are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative,

FARMERS ATTENTION.
We have concluded to offer the services of our stallions
to the farmers of Adams County at such prices as will bring
those services well within the means of every farmer of the
County. The cross of the trotting stallion on the ordinary
farm mare produces the BEST GENERAL PURPOSE
HORSE IN THE WORLD. They make good farm horses,
good drivers on the road, are intelligent and docile and bring
better prices when sold. The purpose in offering our high
bred stallions to the Adams County farmers is to enable them
to improve their stock at a reasonable cost.
Our stallions are among the best bred in the world; they
possess good individuality, good size, strong bone and pro-
duce handsome, intelligent and docile colts.

GIRL DANCED WITH SKELETON.
San Francisco Maid Must Be Credited
with Some Nerve.
This is a story of something that
was expected to happen and did not.
There was once a skeleton at the
Hopkins Academy of Art supposed to
be that of a celebrated French danc-
ing master whose field of usefulness
was now confined to the anatomy
room, where he was daily observed
by a bevy of girl students. The ex-
dancing master was mounted on a
base with wheels for the convenience
of locomotion. When one of the cus-
tomary dances was held a number of
girls wandered into the anatomy room
between the numbers and began to
trifle with the old armor, statuary and
other objects. The skeleton of the old
dancing master was dragged into the
middle of the room just as the band
struck up a waltz. The floor was pol-
ished, and the wheels slid over it
with marvelous ease. An idea sud-
denly occurred to the youngest and
prettiest of the girls, and she acted
upon it. "It is long since monsieur
has had the pleasure of a dance," she
said, smiling bewitchingly. "Will he
dance with me?" Seizing her card she
wrote, "Monsieur the Skeleton" upon
it. Then encircling the bony digits
with her own warm fingers she sped
away with the skeleton over the pol-
ished floor. "I dance with death,"
she cried, and laughed gayly as she
whirled. This is where something
should have happened, but nothing
did. The girls grew nervous and
dragged her from the room. The old
dancing master remained alone in the
middle of the floor, and the waltz
swung on.—San Francisco Call.

HIS REASON FOR LOOKING GLUM.
Sour Expression Kept Swede from Be-
ing Bothered.
Prince Wilhelm of Sweden told a
New York reporter that Americans all
worked hard and looked happy. "In
my country," the prince went on, "we
work hard, too, but we have not your
happy look. Perhaps it is the cli-
mate. At any rate, we tell a story in
Sweden that is typical; a story that
will give you some idea of our na-
tional expression, though not, I'm sure,
of our national character. A French-
man visited a Swede in Stockholm,
and one morning the two friends set
out for a walk. Suddenly the French-
man exclaimed impatiently: 'You
look as sour as a pickle. Why don't
you smile? Why don't you have a
pleasant, good-natured air when you
are out of doors?' 'What!' growled the
Swede. 'And have everybody stopping
me for a match or asking me how to
get somewhere?'"

To Save the Birds.
The statisticians who foot up the
loss to the country resulting from the
killing of insect-destroying birds, and
from our further neglect to intelli-
gently protect and foster those winged
scavengers of the air, put the gross
sum at \$800,000,000 per year. We do
not know upon what facts or what
basis of computation this enormous
total is reached; but if it is one-tenth
part true it is a startling showing. The
proposition of the federal government
to set aside bird reservations and
breeding grounds where our feathered
friends might be protected in life, lib-
erty and the pursuit of happiness
seems to rest upon sound economical
grounds. It is a measure of safety for
ourselves as well as for the birds.

Noble Living.
Life is a great word. It is a larger
word than religion or goodness or
character. Fullness of life—that is
what we want. In our efforts toward
right living, we often fail, not for
want of a pure and strong purpose, but
because we have not in ourselves
enough vital force to give effect to
our purpose. We are like an engine
which does not do its work well, be-
cause it has not a sufficient head of
steam on. The secret of noble and joy-
ful living lies largely in putting our-
selves in steady communication with
the reservoirs divinely set for the sup-
ply of man's soul.—George S. Mer-
riam.

Raw Milk Unwholesome.
Nathan Straus sends a message to
American mothers to the effect that
raw milk is not good for children,
the scientific men of the world hav-
ing agreed upon the fact. Milk should
be Pasteurized and the mother can
do this herself in her own kitchen.
The international congress at Brussels
warned against raw milk, because of
the danger from tuberculosis. It is
not the poor alone who need instruc-
tion upon the subject, as many of
the babies of the rich suffer from the
effects of raw milk, but Americans are
said to know more on the subject than
people of other countries.

Attending to Business.
"You say the officer arrested you
while you were quietly minding your
own business?" "Yes, your worship."
He caught me suddenly by the coat
collar and threatened to strike me
with his truncheon unless I accom-
panied him to the station. "You
were quietly attending to your busi-
ness; making no noise or disturbance
of any kind?" "None whatever." "It
seems very strange. What is your
business?" "He's a burglar, your wor-
ship," said the constable.—London
Globe.

Travelers' Tales.
Hostess—"And I suppose you went
up the Rhine?" Affected Youth (who
has been bothering the company with
his traveling experiences)—"Oh, yes,
and many other mountains."—London
Tit-Bits.

A DAY WITH A CHIEF
The chief glanced anxiously at the
clock for perhaps the twentieth time.
"He had the look," muttered the
bookkeeper to his assistant in a sepul-
chral tone, "of a man who expects his
wife."
Ten minutes later the office boy
opened the door to a stout lady wear-
ing a sealskin sack and diamonds.
"Well, Charles," the stout lady
bustled up to the chief cheerfully, "I
suppose you are ready to take me to
lunch."
"No, I am not ready to take you to
lunch," her spouse replied in a tone of
exasperation, glancing at the clock
for the twenty-first time.
"But—"
"Yes, I know; but I've had no less
than 11 interruptions this morning,
and I must dictate my foreign mail
before one. The steamer sails at
three. You'll have to sit down and
wait. Here's a chair; there's the
morning paper."
"But you said 12," insisted the lady
in an aggrieved tone. "And, talk about
interruptions," she added; "why you
should have seen me this morning.
First the butcher, then the baker,
then the grocer on the 'phone; then a
jelly that wouldn't jell to reconstruct;
then the housemaid's finger to bind up
which she had cut on a lamp chimney;
six callers to interview; the head of
the Ladies' Charitable guild to see—
yet I was able to keep my appoint-
ment. I don't see why you can't keep
yours."
"Sit down and wait awhile and you
will see," replied her better half,
grimly, as he turned to the pile of
mail on his desk and rang for his
stenographer.
"Your favor of the 14th instant is at
hand—"
Just then a Spanish looking gentle-
man, his cape thrown over his shoul-
der serape fashion, opened the door:
"I represent Baron Barrera of
Madrid," he said. "The baron has a
concession from the Spanish govern-
ment and intends to use your ma-
chine entirely. He estimates that he
can use many of them. How many
do you think?"
The chief gave it up and looked de-
spairingly at his pile of mail.
"Twenty-five thousand!"
"Want to place your order now?"
"No-o-o, but—"
"All right; when you get ready
come in and see us." He turned to his
stenographer:
"You favor of the 14th instant is at
hand—"
The old Spanish don drew up his
shoulders proudly and stalked out of
the office, muttering a Castilian oath.
"Talk about your castles in Spain! If
I had all the money these hot air
merchants peddle I would be able to
pay the Standard Oil fine!" muttered
the chief as he went on with his dic-
tation.
He had to stop only seven or eight
times in the next ten minutes to reply
to insurance solicitors, charity agents,
"feather dusters," "shoe laces and
matches," a lady who wanted to "use
the 'phone just a minute" and a man
who wanted to borrow a stamp.
Then a dusty looking individual
wearing the broad brim hat of the
west opened the door and confronted
the chief.
"Are you the head of this establish-
ment?" he asked.
"I am that unfortunate," said the
person addressed. He motioned the
stenographer not to move.
"I represent the Nevada Silver Mine
company and we want your machines
if the price is right. My motto is,
'Machinery Drives Men,' and I've at
last got the company to look at things
my way."
"I have a check here for the pur-
chase of the machines signed by the
president of the company. I've got
to catch the nine o'clock train west
to-night, but I'd like to see something
of the town before I go."
The chief glanced at the bookkeep-
er. "What do you think of it?" he
telegraphed rapidly.
The bookkeeper's shrug seemed to
give it up.
The chief looked apprehensively at
his wife. Then he crossed the room
and muttered in her ear:
"Fraid I can't keep that luncheon
engagement, after all. I'll have to
take that fellow around. I suppose.
He may be the goods, although he
doesn't look it."
"Well, I never—" began the lady,
growing red as a turkey cock.
"But I was going to say," inter-
rupted the chief, hastily, "that if you
want to go uptown and pick out that
ermine muff you've been wanting for
so long—"
"And now," he said to the book-
keeper when his wife had departed,
her anger suddenly appeased, "give
me \$50."
"Answer what you can of the mail,"
he called over his shoulder to the
stenographer as he trotted off with
the "prospect" in tow.
The morning after, the chief walked
into the office, showing the effect of
a Turkish bath scrubbing. He handed
the bookkeeper a check for \$2,800
from the Nevada Silver Mine compa-
ny and dropped the order for the ma-
chinery into the hold-up file.
The bookkeeper looked at the check
acceptingly and was not surprised
when two weeks later it came back
marked "No account."
The chief looked at it sadly. Then
he made a memorandum on the back
of an envelope. Two items were "Er-
mine muff, \$97.50," and "Sundries
\$50."

"How rich I'd be," said one um-
brella salesman to another, "if I had
patented the umbrella." "You might
as well talk of a patent on cooking,"
said his friend. "Umbrellas appear
to have existed always. Indeed, where-
ever excavations have been made—at
Babylon, Nineveh, Nippur—traces of
the umbrella have been found. The
article is coeval with mankind. The
English didn't begin to use it until
1700. Shakespeare with all his genius
had no umbrella to protect him from
the rain. What you might do would
be to patent some new sort of um-
brella—some rain shield built on bet-
ter lines. We have proof that the
umbrella has existed for 10,000 years
and yet in all that time it has not
once been improved. To-day, as it
did two or three hundred years ago,
it turns inside out with a strong gust
of wind and it only protects the head
and shoulders from the rain. Change
all that. I want an umbrella that is
a complete rain shield. Then you will
be a millionaire in six months."

San Francisco's Rat War.
The raid on rats at this time is not
the first of the kind in San Francisco.
In 1852, when the sidewalks in Kearny
and Montgomery streets were as un-
even as the existing walks in Mar-
ket street east of Front, and were
made up of dry goods boxes laid in
the mud end to end, some high and
some low, the town was overrun with
rats of all colors—gray, white, brown
and black. At night they would
crawl out of their holes and run along
the uneven walks. They were so thick
on the streets during the spring of the
year named that women were afraid
to go out after nightfall, and the
men who ventured forth on the poor-
ly lighted streets often stepped on a
dozen rodents in walking the distance
of a block. It was no uncommon thing
to see men with crooked canes on the
sidewalk playing shinney, the rats be-
ing used in place of knurs. In that
way many were killed.

"Dick Turpin's Tree."
The last remaining portions of a
famous old elm, which was known to
all lovers of Blackheath, England, and
the surrounding country as "Dick Tur-
pin's Tree," were removed recently.
Tradition goes that the famous high-
wayman used to hover about near the
gigantic branches of this elm, well out
of view of his prey, whom he used to
so adroitly "hold up" with his horse
pistols, and relieve of whatever loose
valuables they might have. The elm,
which had a circumference of over
15 feet, stood close to Hyde Vale, al-
most opposite "Ye Olde House." While
it was being cut up a nail, in perfect
condition, was found imbedded in the
center of the wood.

Diving for Alligators.
While walking near a pond in the
woods, Bullie Ham, who can tell the
presence of an alligator by the smell
of the critter, pulled off his coat and
took a header under the water. While
at the bottom of the pond Bullie's leg
arose to the surface and waved to the
men near the shore. The warning was
heeded by the men catching Bullie's
leg and giving it a yank that brought
Bullie to the surface, and with Bullie
came an alligator that measured some
four feet in length.—Apalachicola

the Goddess of Liberty on your coins?
You know there is no such lady, don't

BOUGHT AID FROM THE GODS.
Japanese Villagers United In Cursing
Robber to Death.
This bit of local color is from the
Japan Times: "At Shinokubo, a small
village in Soshu, consisting of only
70 houses, several cases of robbery
have lately occurred to the great
alarm of the villagers. A diligent
search instituted by them for the of-
fender proved an utter failure. The
community consequently held a mass-
meeting and unanimously agreed upon
cursing the robber to death. A virtu-
ous priest of the locality was ac-
cordingly applied to for the purpose.
He, however, declined to curse the
robber to death, an act too cruel for
a holy man like him to resort to, but
promised that he would paralyze the
robber by his powerful prayers, so as
to disable him and lead him to repent-
ance. Thus the priest commenced his
incantations. But, behold, the robber
continued his subtle operations to the
indignation of the entire community.
The priest has been condemned as a
worthless fellow, and the villagers
have taken upon themselves the task
of repairing every day to the village
temple by twos and threes to offer
horrible prayers by which the robber
is doomed to an early and fearful
death."

SKIN ON FIRE—AGONY

UNBEARABLE

Terrible Itching Burning Skin Disease Now Quickly Cured.

A purely vegetable external remedy that has been proved beyond all possible doubt to cure the worst cases of Eczema and all skin diseases, can now be procured by all skin sufferers. This remarkable remedy is D. D. D. Prescription, the discovery of Dr. Decatur D. Dennis, the well-known skin specialist, and is being manufactured by the D. D. D. Co., 112 Michigan St. Chicago, Ill. The demand for this remedy has become tremendous within a short time because people are just learning that the hundreds of cures it has made seem to be permanent.

Eczema and all diseases of the skin must be treated locally, according to the views now held by foremost skin specialists and physicians; that is you must doctor the itch where the itch is. It is useless to attempt to cure skin disease by taking drugs and medicines into the stomach. The disease is not in the blood. It is in the skin and only skin deep. You must get at the seat of the disease and kill the germ by making direct applications to the skin.

Mrs. L. B. Powell, Box 414, Caruthersville, Mo., writes: "Words cannot convey my full appreciation of D. D. D. The face of my baby boy was a solid scab, when I accidentally heard of D. D. D. I secured a bottle at once and began to apply it. It was miraculous in its cure. It healed by baby's face completely. If anyone wants further information about this I shall be only too glad to hear from them."

Testimonials of hundreds of cases of remarkable cures by D. D. D. Prescription and an interesting booklet on skin disease and its treatment, exercise, diet, bathing, etc., may be had free by calling on The Peoples Drug Store, where D. D. D. Prescription and D. D. D. Soap will be found on sale.

SURPRISE PARTY.

JACKS MOUNTAIN, May 11.—A surprise party was given at the home of Mr. and Mrs. Howard Sanders on Friday eve. The 5th in honor of their daughter Helen's eighteenth birthday.
